Proviso.

SEC. 104. That whenever it shall be considered necessary to establish a ferry across any lake, river, creek, or other water course, within the limits or upon the borders of this State, at any point or place where such lake, river, creek or, other water course shall pass through or upon any common school land, or shall form a boundary line of such land, the exclusive right to establish and keep in operation such ferry, shall be in the township or fractional township, for the use of the inhabitants, of which such school lands are or may be held: *Provided*, That where the school lands are bounded by the stream and situated entirely on one side thereof, the ex-

clusive right hereby vested shall only extend to the establishment of a ferry from the side on which the land is situated, but the ferry privilege on both sides may be granted by the proper authorities to the township or fractional township aforesaid.

SEC. 105. If the township or fractional township having the right to establish a ferry according to the foregoing section, shall have been, or be incorporated, then the ferry license shall be granted to the corporation, and all the rights and emoluments pertaining to, or growing out of the license and privilege, shall be enjoyed forever; but if there be no such incorporation, the license should be granted to the trustees of school lands, appointed by the commissioners' courts, to be held by them until the incorporation, when the license and all the ferry rights granted or existing shall vest in the corporation, to be held and enjoyed as aforesaid.

SEC. 106. Ferry privileges granted or obtained under the foregoing provisions, shall be leased in the same manner as common school lands, and the rents shall be collected and applied in the same manner and to the same objects as rents of land.

SEC. 107. When any public road, canal, or other public work, shall be laid out or constructed over or upon any common school land, so as to injure the same, or lessen the value thereof, damages shall be assessed and paid to the extent of the injury, to the trustees having the care and supervision of the land, for the use of the township interested; and the proceedings in assessing the damages shall be had under the laws of the State, providing for such assessments in reference to the lands of individuals or private corporations. The trustees having the charge or supervision of the land, shall be the party to the proceedings, representing the rights and interests of the townships or inhabitants represented. And the right of way for roads, canals and other public works, over and upon common school lands, shall and may be obtained by the proper authorities, by instituting proceedings against trustees; or trustees may obtain damages arising from the opening or using lands for any road, canal or other public improvement, under and according to the laws regulating the right of way.
